

### Introduction:

**FireHalt CollarRoll** is a fire resistant textile penetration management seal designed to be used with the full range of Firehalt barrier systems. It is both easy & quick to install.

**FireHalt CollarRoll** is pre-fabricated from Firehalt fabric and incorporates both the collar and cuff elements that are essential for correct installation.

**Firehalt CollarRoll.** When installed with the Firehalt HT Adhesive it will maintain the fire resistant of the chosen Firehalt barrier for up to 120mins.

<b>Physical Properties:</b>	Description :	Lightweight / Health Safe / User Friendly / Flexible / Durable / Easy to Handle
	Colour :	White
	Proprietary Treatment :	Food safe and non-corrosive.
	Thickness :	0.5 mm
	Weight::	240g per lin m -
	Fibre size :	> 6 micron, (classified non-respirable)

<b>Fabric Specifications</b>	Weight: :	450 g / m <sup>2</sup>	Thickness :	0.5mm
------------------------------	-----------	------------------------	-------------	-------

<b>Test Specification :</b>	Exova Warringtonfire	EN 1364.part 1	120 minutes integrity
		BS 476: parts 20/22	

<b>Certification Body:</b>	IFC Certifications	Ref #	Pending
----------------------------	--------------------	-------	---------

<b>Packing Specification and Dimensions:</b>	Width:	360cm	Packed :	Rolled and individually wrapped in polythene.
	Roll Length:	10m		
	Roll Weight	2.4kgs
